

Reference List LabImage 1D

LabImage 1D is the most advanced software solution in 1D gel analysis. Powerful features as step-by-step workflow, innovative image analysis and data export make LabImage the first choice. Since its initial launch in 1999 the LabImage 1D has convinced thousands of users worldwide. Many known institutes and research center all over world use LabImage 1D for reliable and fast analysis.

Germany

- Paul Ehrlich Institut (PEI)
Frankfurt
- German Cancer Research Center
Heidelberg
- Max Planck Institute
for experimental Medicine
- Charitè Berlin
